ABOUT US

At Makchem International Pvt Ltd, we are committed to supplying high-quality raw materials that form the backbone of manufacturing across food, chemical, and industrial sectors. With a diverse product portfolio that includes edible oils, acid oils, chemicals, jaggery, colours, dyes, fatty acids, we serve as a reliable source of consistent and dependable inputs for businesses of all sizes.

Our journey is built on three core principles: quality, trust, and long-term partnership. We work closely with certified manufacturers and trusted suppliers to ensure that every product we deliver meets strict standards of purity, safety, and performance. From food-grade materials to specialized industrial inputs, our focus is on delivering value with every shipment.

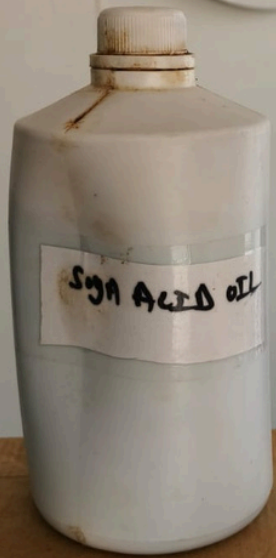

With strong sourcing capabilities and an efficient logistics network, we ensure timely deliveries and seamless service—helping our clients maintain uninterrupted operations and optimized supply chains. Our customer-centric approach means we don't just supply raw materials; we understand your requirements, anticipate your challenges, and support your growth.

MISSION

- To deliver premium-grade raw materials with consistency and reliability
- To build enduring relationships through transparency and trust
- To drive operational excellence through innovation and efficient logistics
- To support our clients' growth through dependable, long-term partnerships

VISION

To be a globally recognized leader in raw material supply by setting new standards of quality, sustainability, and customer-centric service.
